Wiretaps Approved in Probe Here

Federal investigators have opened a probe into possibly illegal gambling by several Milwaukee area residents and have obtained court approval for at least two wiretaps in the case.

The investigation involves the Milwaukee office of the FBI and the Organized Crime Strike Force based in Chicago.

Limited information about the probe became available when the FBI notified several persons that they had been overheard.

Sources said telephones at a home in Whitefish Bay and at an unidentified building on Brady St. had been tapped last December.

An FBI official said Thursday that the persons whose conversations had been overheard included Frank P. Balistrieri, who has been identified as an organized crime figure.

Others overheard include Steve DiSalvo, who has frequently been involved in dealings with Balistrieri and has been a figure in earlier investigations into criminal activities in Milwaukee; Raymond Dulski, Frank Fortino, Sam and Dennis Librizzi, August Palmisano, Peter Picclurro and Joe Volpe.

Several Told Of Wiretaps

Several persons in the Milwaukee area, including Frank P. Balistrieri, have been notified by the US government that their telephone conversations have been overheard, it was learned Wednesday.

The monitoring apparently is part of an FBI inquiry into gambling, which will result in a federal grand jury investigation.

The notice is the result of a Federal Court authorized wiretap of two telephone numbers during Christmas weekend last year, sources said.

A telephone located in a Whitefish Bay home and another one at an E. Brady St. location were bugged.

In addition to Balistrieri, persons notified include Steve DiSalvo, Raymond Dulski, Frank Fortino, Sam and Dennis Librizzi, August Palmisano, Peter Picclurro and Joe Volpe.

The law requires notice be sent to persons whose telephones are bugged and to the persons overheard in telephone conversations.

Caesar Bar Permit Opposed by Police

The Milwaukee Police Department has objected to the new applicant for the tavern license for Little Caesar's Cocktail Lounge, formerly operated by Vincent J. Maniaci.

The applicant is Richard W. Czarnecki of 2121 N. Cambridge Ave., former holder of the tavern license at Richie's on Broadway, 346 N. Broadway, where he is a bartender.

The Police Department's license application report objects to Czarnecki because of applicant's known association with bookmaker Steve Halmo and commercial gamblers August Palmisano and Raymond Dulski, his bartender, coupled with unlawful storage of dynamite on tavern premises; this applicant as previous tavern operator alleges a lack of proper qualification (moral character).

Palmisano, Halmo and Dulski were charged with federal gambling violations in connection with an FBI raid on Superbowl Sunday, Jan. 13, 1974.

Halmo, 53, of 716 S. 7th St., pleaded guilty to charges of

conspiracy to gamble, conducting a gambling business and conspiracy to transmit wagering information.

Palmisano, 46, of 5358 N. Kent Ave., Whitefish Bay, pleaded guilty to conducting a gambling business. Another charge against Palmisano — unlawfully storing 93 sticks of dynamite in the basement of Richie's — was dismissed.

Dulski, 36, of 4439 S. 38th St., was one of five others charged in the raid whose indictments were thrown out by the federal court.

Maniaci withdrew his license renewal application for Little Caesar's, at 1758 N. Water St., after he was convicted by a federal jury in April of loan extortion and of interstate transportation of four stolen mink coats.

He was sentenced to three years in prison.

Czarnecki, 27, had proposed to rename the tavern Richie's Little Caesar's, according to the police report.

The police report stated that Czarnecki has no arrest record.

REPORT

19 _____

In the matter of HOMICIDE--PALMISANO, August M-1340

To _____

Sir:

Charges Unlikely in Palmisano Slaying

Many law enforcement officials believe they know who is responsible for the bombing death of August S. Palmisano, but there are doubts that anyone will ever be prosecuted, sources say.

The killing probably was carried out by an out of town professional working under orders, sources said. One source named a man long associated with organized crime in Milwaukee as having given the orders.

Palmisano, 49, was killed June 30 by a powerful bomb that exploded in his car in the underground garage at the Juneau Village Garden Apartments, 1319 N. Jackson St., where he had an apartment.

Palmisano, a convicted gambler, was described by police as a "substantial figure in organized crime in Milwaukee."

Police have said he had been the subject of various investigations in connection with prostitution, receiving stolen property, extortion and commercial gambling.

Tie to Other Cases

It is believed that the same person who ordered the Pal-

misano killing also ordered the deaths of August and Vincent Maniaci.

August J. Maniaci, 66, was killed in September, 1975, at his home at 2121 N. Newhall St. He had been shot to death with a .22 caliber automatic pistol equipped with a silencer. Maniaci also had a long involvement in organized crime.

Last summer, his brother Vincent J. narrowly escaped a bombing attempt.

A bomb placed under the hood of Vincent's car was not properly connected and did not explode.

Palmisano was close to the Maniacis and reportedly had complained loudly about the attempt on Vincent Maniaci's life.

Probe Seen

Another source said a federal grand jury investigation is expected to be called soon into the attempt on Vincent Maniaci's life. That probe also is expected to touch on aspects of the Palmisano killing.

With little circumstantial evidence and no known witnesses, sources said, the only way anyone could be prose-

cuted is through inside information.

"We have nothing good going on the damn thing at all," one official said. "This is not the kind of killing that you get good information that you can charge anybody with."

Hurt by Breier

One source said the Milwaukee Police Department was hampered in its investigation by Police Chief Harold Breier's stated belief that there is "no prosecutable evidence of any organized crime here."

Because of that, the source said, the department has not assigned officers to try to penetrate the organized crime hierarchy here and cultivate sources.

The source added that acceptance of Breier's often repeated statement has led to the incorrect perception that organized crime is relatively insignificant here.

In fact, such activity in Milwaukee is comparable with that in cities of similar size, with mob involvement in gambling, extortion, loan sharking, fencing and prostitution, the source said.

On Wednesday, August 17, 1977, we were dispatched by Detective

Lieutenant Andrew F. Anewenter, Squad 166, to investigate a crime scene located at 1334 North Van Buren Street. Upon arrival at the scene we found that it was under the command of uniform patrol sergeant, Squad 1, Frank Koehler, who had uniform Squads 10, 11, 15, and 17A, which completely enclosed the area permitting no traffic to go through.

At the scene we interviewed, at 9:20 a.m., a Thomas John Wendlandt, white male, born [REDACTED] of 1703 North Arlington, home phone 278-7259, who operates the Lake Front Car and Cycle Shop, located at 1334 North Van Buren Street, phone 276-7295. Mr. Wendlandt explained to us that he came to work on Wednesday, August 17, 1977, at approximately 6:45 a.m. As he was preparing to open the shop the time being around 7:45 a.m., he heard a knock on the overhead door windows. He opened same and found that it was a customer of his by the name of Vincent Maniaci. Mr. Maniaci stated to him that he was having trouble starting his car and he didn't know what was wrong. Stated that the accelerator would not go down on the car and that he had no idea what was wrong with it. Mr. Wendlandt then opened the hood of said automobile and started to explore underneath of the hood. As he opened up the hood, which opens up on the outside of the vehicle by the grill, he states he saw a package with wires coming out it. He showed this to Mr. Maniaci and stated, "I'm going to call police, it

Explain in detail what work was done on the case:

On Wed., Aug. 17, 1977, at approximately 8AM, we, Dets. Emil Markovic and George Timm, were sent to

1334 N. Van Buren St. to investigate a possible bomb planted under the hood of an automobile, a 1969 Buick 225 4-door sedan, '78 Wis. G56-893, which was properly parked in front of 1334 N. Van Buren St.

Upon our arrival, we observed that the hood of the aforementioned automobile was open and we visually observed a grey package taped together, placed against the firewall of the automobile on the driver's side, and jammed between the accelerator linkage rod. We observed, protruding from the grey package, two wires, a red wire and a yellow wire. The red wire led to the brace of the alternator, and was clamped to the brace with an "alligator" type clip. The yellow wire led to a lead from the coil and was clamped to the coil lead, again, with an "alligator" clip. We made a thorough search of the engine area and concluded that this was a bomb, whereupon, we proceeded to disarm the device.

We cautiously removed a portion of the tape and removed an electric blasting cap from the device, then removed the "alligator" clips from the alternator brace and from the coil lead. We put the electric blasting cap into a pipe-cap "de-armer" container, and removed it from underneath the hood. We then taped a line to the package and remotely removed it from the automobile onto the street. We then cautiously opened the package and rendered the device safe. We observed that it contained numerous sticks of dynamite and a dynamite booster. A later count revealed that there were 18 full sticks of dynamite,

Explain in detail what work was done on the case: On Wed., 8/17/77, I, Detective Emil Markovic, tested the electrical system on the 1969 BUICK 4-door 225, Wis. license G56 893, 1978, owned and operated by the above named on this date.

I used the same hook-up system as employed with the explosive device and electric blasting cap. I connected 1 wire to the alternator bracket (ground) and connected 1 wire to the coil pull. I bared the ends of both wires and had the ignition turned on. I touched the bare ends together, but received no spark. I then rechecked the wire hook-up on the alternator bracket and coil pull, making sure the connections were firm and tight. I then had the ignition turned on and I touched the bare ends together causing a spark indicating that the circuit was now operative.

Further investigation pending.

On Fri., Aug. 19, 1977, at 9AM, I hand-delivered evidence on Inventory #580022 and 580018, which consisted of dynamite wrappers and a taped package mass, to the FBI Laboratory located in the "J. Edgar Hoover Building", Washington, D.C. Two packages were accepted and placed in the mailroom, and I was informed at that time, that there would be a reply as soon as possible. When I inquired in regards to a priority analysis, I was referred to Inspector BILL P. HERNDON, who is the Deputy Assistant Director of the Laboratory Division. Inspector HERNDON, after a lengthy discussion, agreed that the matter in question deserved prompt attention and immediately assigned the matter to a laboratory technician. The laboratory technician obtained the two packages from the mail room, and they were opened in my presence. Prior to my departure, the analysis of the residue material found clinging to the wrappers, had begun. After the residue examination is complete, the packages will be sent to the Latent Division for development of latent prints, and our Department will be notified as to disposition and the items sent will be returned, including photographs.

The garage operator went into the garage and called the police.

At 90th ay we went to the office of the F.B.I. and talked to Agent Ralph Price. At the detective bureau we questioned Monaco about who might be responsible for the brush being placed in the auto. He said that he has no idea as to who might have been responsible for the incident. He also told us that he had no information regarding the death of Jim Smith. Quinn Monaco and he also did not feel that any incident is related to his brother. Explain in detail what work was done on the case:

On Wed., Aug. 17, 1977, at 9AM, we were dispatched to investigate at 1344 N. Van Buren St., a report of "bomb in an auto".

Investigation at that scene revealed that an explosive device had been placed in a 1969 Buick sedan, "Electra 225" model, bearing Wisconsin license G56-893, VIN #484399H271405. This explosive device had been placed under the hood of this vehicle, which was, at this time, parked at 1344 N. Van Buren St. The owner and operator of this Buick auto was Mr. Vincent MANIACI.

We were assigned to check the auto for evidence, after our Bomb Squad had removed the device and rendered it harmless. After the vehicle was declared safe by the Bomb Squad, Dets. George Timm and Emil Markovic, Menzl's Towing Co. towed the auto to #1 Garage. The driver of the Menzl's tow truck was a Roger PUFATH, W/M, [REDACTED] of 1542 N. 50th Pl.

At #1 Garage, the Buick was placed on Milwaukee Police Inventory #580015, and held for evidence. Det. Douglas Paulos and I checked the vehicle for possible latent fingerprints, and recovered 4 latent prints on the front of the vehicle: two on the left front fender, and two on the upper front hood and grillwork. These lifts were placed on B of I Latent Case #22385. Explain in detail what work was done on the case:

On Thursday, 8/18/77, we checked a number of residences at the rear of the halfway house at

2407 West Fond du lac Avenue. These residences overlook the parking lot where Mr. Maniaci parked

his automobile. In checking the area we found two houses which are directly across from the

parking lot which have a good view of the parkinglot. In checking one of the homes at 2458A West

Medford, we interviewed a Lucinda HARRIS, B/F, age 74, bn [REDACTED] She resides in a rear cottage at

We later checked the residence which is directly south of Mrs. Harris' home which is the

Examination Requested:

Request an analysis of the substance in the aforementioned vials.

Statement of Facts:

A package with wires attached was discovered by the victim beneath the hood of his auto and against the firewall adjacent to the driver's side of the car. The package was interfering with the throttle travel of the throttle rod. The victim drove for several miles at a very slow speed, unaware of the package or obstruction of the gas control. He stopped at a garage and an improvised explosive device was discovered. The cap "leg wires" were attached with alligator clips, one lead to the coil, and one lead to the adjustment bar of the alternator (the ground). The lead to the coil apparently malfunctioned due to excessive dirt and grease on same. The package was hand-entered and rendered safe. The entire package was wrapped with aluminum duct tape and a closed type explosive device. Upon entry, the cap was removed from a 1-lb Trojan booster charge, which was adjacent to 18 sticks (whole) and two sticks broken in half (4 pieces) of "Red Arrow Dupont" brand, 70% strength, with Number P754U15A, and a portion of a paper carton wrapped to booster stayed with the inside adhesive which may have contained the code numbers. The tape and dynamite wrappers may contain latent prints. Photos of prints of the mechanics on scene, victim and bomb squad officers are available for comparison purposes.

he had received a phone call on Saturday, Aug.

19th 1977 from the Federal Marshall's office

and they asked that they may be out Monday,

Aug. 22nd 1977 to pick him up. Mazzari

informed me that he was not to pick any

clothing but to go along as he was dressed.

I informed Mazzari that he should make

sure that any Federal officer that came to

pick him up should call our Detective

Inspector in regard to the position of our

plant detail. I further advised the FBI

about personnel to be certain to check

anyone who seemed to approach the residence.

Sir:

I also asked Vincent Mammie that I had an important question to pose to him I then asked to him that he should give me the name of the most trusted friend even if it is Augie Longano because that is the link to his problems. Vincent Mammie did not make a verbal sound but nodded his head affirming he understood. I asked that I wanted an answer to my question and he replied "I that the exact wording you were told." I asked I wanted an answer and received silence.

There was some power of silence and Mammie then asked, "You know there is two rules to that play, I maybe thinking but some one else is thinking to."

I then remarked to Mammie that I had

been checking around on 20th Aug 1977 and checked "things" and saw the

"man" then and he didn't appear to be

looking over his shoulder. Mammie

That on Wednesday, August 17th, 1977 at about 7:45 A.M. - Vincent Maniacki drove his 1969 Buick Electra Sedan, Lic. #G-56-893/78 in front of his garage at 1334- North Van Buren Street and stated, -

that his "accelerator wasn't working, to take a look at it." Thomas Wendlandt said, he opened the hood, walked to the side of the car, and observed a large package forced against the "fire wall" and the accelerator lever, and it appeared like a bomb. He showed it to Vincent Maniacki, and Vincent took off, walking away from the scene. Thomas Wendlandt immediately called the Police Department, and the uniform officer sealed off the area, and evacuated the apartment buildings and business places.

2121 North Newhall, VINCENT MANIACI, W/M, dob 5-25-19

To Kenneth Hagopian

Inspector of Detectives

Sir:

On Wednesday, 8-17-77, we were assigned to the surveillance of

the above mentioned Vincent Maniaci, W/M, dob [REDACTED] at his present

residence, 2121 North Newhall. We arrived at the scene at approximately

4 p.m., relieving the Day Shift Detective Bureau Team. While at the scene

Detective James Kelley was stationed inside the residence at the front door

area and Detective Dante Laporte was assigned to the rear of the residence

in a squad in the alley directly to the rear of 2121 North Newhall. While

Detective Laporte was in the rear of the residence, he observed no suspicious

activity.

Myself, Detective James Kelley assigned to the interior of the

residence had a brief conversation with Mr. Vincent Maniaci regarding the

attempt on his life that was made on Wednesday, 8-17-77, in the A.M. hours.

This attempt on his life was attempted by placing dynamite on the engine

of his automobile. Reports regarding this are presently on file.

Questioned Mr. Maniaci to see if he could offer any information

as to who committed this crime and he offered no information whatsoever,

stating he did not know who could have done this. While in the residence,

guarding Mr. Maniaci, and stopping all suspicious persons or other persons

who may come to the door, the following occurred: At approximately 4:30 p.m.,

Wednesday, 8-17-77, a Milwaukee Sentinel Newspaper Reporter appeared at the

front door, and asked if he could speak to Mr. Maniaci. I asked Mr. Maniaci

if he wished to be interviewed and he stated 'no'. I then told the reporter

Mr. Maniaci was not home and told him there would be no comments from the

Police Department or Mr. Maniaci at this time and the reporter left. At

approximately 5:25 p.m., Wednesday, 8-17-77, a 1976 Chevrolet parked in front of the residence and a white male approached the front door of the residence. He was stopped and challenged by myself, Detective James Kelley, at which time he showed FBI identification, stating his name was Robert Walsh. He arrived in a '76 Chevy, license number QM 7246. Challenged Mr. Walsh upon stopping him at the front door and I told him to wait, went and talked to Mr. Maniaci and Mr. Maniaci stated he would grant an interview with the FBI Agent. For approximately 45 minutes Agent Robert Walsh and Vincent Maniaci were in the upstairs bedroom area of the residence and had a private conversation. Mr. Walsh left at approximately 6:10 p.m. At approximately 5:45 p.m., another white male approached the front door, one Stanley J. Navarre, Jr., W/M, dob [REDACTED] of 811 East Pleasant, (347-0421) employed at Chicago Milwaukee Railroad. Upon him approaching the front door, he was challenged by myself Detective Kelley, at which time Mr. Maniaci came to the front door and stated, "I know him, he is a friend, let him in", and Mr. Navarre was allowed to enter the residence. Mr. Navarre stayed at the residence the entire time that I was there and until I left at approximately 12:25 a.m., Thursday, 8-18-77. At approximately 7:10 p.m., a 1971 Cadillac, license number WB 9097 parked in front of the residence and proceeded to the front porch area. The white male who approached was challenged and he showed I.D. of a Richard Czarnacki, of 2121 North Cambridge. As he approached he was challenged and Mr. Maniaci looked out the window and stated he was a friend and could enter the home and Mr. Czarnacki was allowed to enter the residence. Mr. Czarnacki also stayed at the residence from the time of his arrival at approximately 7:10 p.m. until we were relieved by the late shift at approximately 12:25 a.m., Thursday, 8-18-77.

Along with the parties mentioned above, several relatives, being

RE: SURVEILLANCE: VINCENT MANIACI

AUGUST 18, 1977

sisters, brothers, nieces and nephews did arrive at the residence and were all checked first and Mr. Maniaci was asked if he would see them and they were all allowed entry with the permission of Mr. Maniaci. Some stayed several hours, some stayed only a few minutes, had brief conversations with Mr. Maniaci and then left.

It should be noted that during the time that I was in the residence Mr. Maniaci received phone calls from several people and Mr. Maniaci stated to me that after each phone call where the calls emanated from. He received phone calls from Florida, two phone calls from Las Vegas, a phone call from New York, Chicago (Illinois), San Francisco, (California) and several other local calls. I did not attempt to overhear any of the conversations but what I did hear were short conversations, mostly being spoken in Italian, apparently so that I could not overhear or understand what was being said. At 8 p.m., Wednesday, 8-17-77, we were relieved for lunch by Squad 105 - Detectives Dahl and Wank. After lunch we returned to the residence and assumed our same positions.

While in the residence after 8 p.m., sometime around 10:30 p.m., further conversation with Mr. Maniaci and myself, Detective James Kelley occurred, at which time Mr. Maniaci stated to me, "I am not a singer. I'll never talk". He stated this referring to the fact that he stated that he was offered immunity by the FBI, refused the immunity and stated he is not a squealer and not a singer. Brief conversation in a not serious vain was conducted between myself, Detective Kelley and Mr. Vincent Maniaci, and at one time in our conversation, he stated, "If I go down, or if they get me, someone else will go down also". It should be noted that Mr. Maniaci was drinking rather heavily prior to this conversation and immediately after he said that, he changed the subject.

RE: SURVEILLANCE: VINCENT MANIACI

AUGUST 18, 1977

Myself, Detective James Kelley and Detective Dante Laporte, my partner, remained on the premises guarding Mr. Maniaci in his residence until relieved by the Late Shift at approximately 12:25 a.m., Thursday, 8-18-77.

During the time of our surveillance, we observed no suspicious persons or activity other than that mentioned in this report.

MILWAUKEE POLICE DEPARTMENT

Form P14

District No. D/B

THURSDAY, JAN. 19, 1978

INFORMATION REGARDING ATTEMPT HOMICIDE OF VINCENT MANIACI, OCC: 8-17-77, AT 1334 N. VAN BUREN ST.

KENNETH J. HAGOPIAN

Inspector of Detectives

Sir:

On Thursday, January 19, 1978, at approximately 10AM, FBI Agent Warren

MOBERG appeared at our Detective Bureau and informed Deputy Inspector Rudolph

will that they, the FBI, had some anonymous information regarding the attempt

homicide (bomb placed in auto) of Vincent MANIACI, which occurred on Aug. 17, 1977, in front of 1334 N. Van Buren St. Agent MOBERG informed us that the

information obtained concerned a Joseph BASILE, W/M, of our city.

The information was to the effect that Joseph BASILE may have information re

garding this offense, or he could possibly be involved in some manner. Agent

MOBERG also stated that the FBI has possession of a taped conversation of

Joseph BASILE with an informer regarding this offense, and in this tape, it

is indicated that BASILE was at the scene on the date the offense occurred,

Aug. 17, 1977, in front of 1334 N. Van Buren St. Agent MOBERG requested our

permission to review our files concerning this offense, and permission was

granted by Deputy Inspector Rudolph will.

I, Det. Emil Markovic, then reviewed the reports with FBI Agent Warren

MOBERG, and our reports do not have any information pertaining to the afore-

named Joseph BASILE.

On this date, I contacted Mary SCHMITZ, of the Wisconsin Parole and

Probation Department regarding Joseph BASILE, and she informed me that on

Oct. 31, 1977, she filed a pre-sentence investigation on Joseph BASILE for

soliciting for prostitution. At the end of November, 1977, Joseph BASILE

was sentenced to 7 years on a federal charge and 3 years on a state charge

of soliciting for prostitution, and is now incarcerated in the federal prison in Waukesha County. Mary SCHMITZ also stated that her records indicate that Joseph BASILE was in the City of Milwaukee prior to his conviction in Nov.,

1977, and gave Dousman, Wisconsin as his home address, and that he was formerly employed at "Mr. B's Truck and Auto Co.", 252 E. Menomonee Ave., and the

Lakefront Car and Cycle Shop, 1334 N. Van Buren St., (Lakefront Car and Cycle, 1334 N. Van Buren St., is where the offense occurred).

I checked our B of I and found we have a Joseph BASILE, W/M, [REDACTED] our B of I #128844, with a record for assault, and two charges of soliciting

for prostitution. Detective Clerical was also checked and the subject is not wanted at this time. Further investigation is pending.
